

Polylite (PVC)

Technical specifications

WORKING TEMPERATURE	MAX. PRESSURE	MAX. AIR VELOCITY	LENGTH
-30°C to 70°C	+3000 Pa	30m/s	6m

Components:

- 1 layer of 70 micron PVC encapsulating a fiber reinforcing bronze coated bead wire

Properties:

- does not unravel when cut
- air tight
- smooth inner surface for efficient airflow

Available sizes: 80 - 630 mm
