

# KM ~ Cold shrink sleeves

## Technical specifications

WIDTH	LENGTH	PIECES	KG
75	15	24	1,35
50	15	24	0,82

Is used for sealing ducts, especially for places which require airtight sealing

Technical details:

- carrier: 0,1mm polyethylene
- adhesive coating: 1mm
- colour: grey
- banding time: 24 hours (max.)
- water resistance: very good, apply to dry surface
- peel on steel: 9 N/cm (23°C)
- density: 1.7g/cm<sup>3</sup>
- elongation at break:  $\geq 700\%$
- fire reaction classification: B2 (DIN 4102, part 1)
- flexibility: excellent up to -40°C
- temperature resistance: -40°C to +70°C
- solid substance: 100%, no evaporation

- ageing process: very slow
- storage: as dry as possible
